Under NAHASDA there is a definition of who is designated as essential: Work Force, Law Enforcement, Health Care providers, etc. In the LCO Code, Indian essential to the well being of the tribe and housing cannot otherwise be attained. How would this affect the Waiting List ranking? What is well-being? What percentage can be used for over-income individuals/families/

(Resumed at 9:59 a.m.)

- **NAHASDA Regs, 24 CFR 1000.104** – What families are eligible for affordable housing activities? a) Low-income families on a reservation or Indian area b) A non-low-income family may receive housing assistance in accordance with 1000.110. c) A family may receive assistance on a reservation or Indian area if the family's housing cannot be reasonably met without such assistance and the recipient determines that the presence of that family on the reservation or Indian area is essential to the well-being of Indian families. d) A recipient may provide housing or housing assistance through affordable housing activities assisted with grant amounts under NAHASDA for a law enforcement officer on an Indian reservation or other Indian area. (Conditions to the law enforcement officer)
- A response will be sent that the Housing Board has received the concern and is looking into compliance and potential impact of such a policy change. Jean is going

to print out information, give it to Shauna and she will prepare something for AG Jim Schlender.

- Send RTHawk contract for Supportive Housing, Strategic Plan and Indian Housing Plan to Shauna.
